

STRAINERS, BREATHERS, SCREEN ASSEMBLIES AND
FILTRATION SOLUTIONS

Filtration Solutions for Industry

Stock and Custom Manufactured Products
Industry-Leading Delivery Times

Manufacturers and distributors count on OFCO's flexibility, product quality and outstanding customer service.

Our central-Ohio manufacturing facility and veteran workforce deliver solutions that consistently meet critical specifications and exceed customer expectations.

OFCO has been the manufacturer of choice for strainers, breathers, screen solutions and filtration solutions since 1945. We began supplying airplane parts during World War II and quickly grew our capabilities to support a wide range of manufacturers, distributors and end users.

Filtration products that are both standard and custom is where we do our best work. Our entire manufacturing operation is driven by Lean principles where velocity of products through our shop and quality meet to create a product that is designed, manufactured and shipped on-time, every time.

OUR 75TH YEAR

OHIO FABRICATORS
COMPANY

Delivery when you need it

Nobody beats OFCO delivery times! When critical parts are needed, we manufacture and deliver standard items and custom-manufactured components faster than anyone. Our stock products and huge inventory of raw material components allow us to quickly produce and ship your products when you need them, usually within two weeks from receipt of order.

Guaranteed quality and unsurpassed service

OFCO's production operations are governed by a fully documented Quality Management System that is third-party certified to meet ISO 9001:2015 requirements. The system is audited semi-annually by BSI auditors to ensure ongoing conformance and continuous improvement. We have the ability to perform product validation as well as PPAP to ensure consistent manufacturing production for any customer.

Along with world class delivery standards, product quality has always been OFCO's top priority

While current metrics show 98 percent of OFCO's deliveries meet or exceed our customers' expectations, processes are continually evaluated for improvement opportunities to move closer to the goal of 100 percent customer satisfaction.

Our customer service, estimating and manufacturing control systems provide an environment where we move your order from inquiry to quote to manufacturing smoothly and efficiently, allowing OFCO to keep delivery on-time, as our customer's demand.

Integrated manufacturing facility

OFCO's 45,000 sq. ft. facility in central Ohio houses our full production operations. With a large inventory of parts and materials, OFCO is ready to create and deliver your solution TODAY! Our Midwest work ethic and access to raw materials and parts, ensure OFCO is always ready to serve our customers and deliver products faster than our competition.

Standard in-stock products and quick-ship assembly

Ohio Fabricators is known for its extensive line of industry-standard filtration solutions in a wide variety of sizes and styles. These consist primarily of strainers, breathers, and diffusers for hydraulic applications. Our large stock of raw materials and sub-assemblies allow us to quickly manufacture custom products to meet your specifications.

Markets Served

At OFCO, we know that every customer in every market segment deserves the highest levels of service, products and quality. That's why we've developed solutions for the following markets:

Agriculture
Chemicals
Construction

Manufacturing
Mining
Off-Road ATV

Oil and Gas
Wastewater
...and More!

OFCO has a long and deep understanding of the **CONSTRUCTION** industry. We pride ourselves in being able to understand our clients and how their businesses work.

We believe that **AGRICULTURE** is vital to the heartbeat of every community. OFCO is committed to providing farming operations the service and support they need and deserve.

OFCO serves the unique needs of the **OIL AND GAS** industry. In order to protect the safety of workers and the environment, our components always meet or exceed industry standards.
